

MPO FIBER  
OPTIC  
CLEANING  
PEN  
AR-FOCP-MPO09

## 1 General

### 1.1 FEATURE

MPO fiber optic cleaning pen is a high-performance cleaning tool specially designed to clean MPO&MTP connector end faces. Alcohol-free material effectively cleans fiber end faces. Efficiently clean all fiber end faces of 12- core MPO&MTP connectors at one time. The MPO fiber optic cleaning pen can clean the end face of the connector (male ) and the end face of the connector with adapter (female) at the same time. Efficiently cleans various stains such as dust, oil stains, residual debris, etc.

- Can clean connector end faces
- Possibility to clean connector end faces and connector end faces with adapter at the same time
- Narrow design still cleans those densely spaced MPO adapters
- Easy to operate, just push to complete cleaning
- Used more than 600 times
- Low cost per cleaning
