

THREE HOLES  
FIBER OPTIC  
STRIPPER  
AR-FS-3H

## ① General

### 1.1 FEATURE

AR-FS-3H is the proper tool to remove 250 um buffer coating to expose 125 um coated fiber

Second hole for stripping 2-3mm fiber covers.

The 140 um diameter hole and V opening in the blade allow the 250 um buffer coating to be removed from the 125 um fiber.

Factory preset – no adjustments needed

Will not scratch or dent fiberglass.
